

ALBER & GEIGER
AG
Advocacy in Legislation

We get it done.

The Firm

Alber & Geiger is a leading European government relations law firm, political lobbying powerhouse, and top CJEU litigation firm. We represent clients at the highest diplomatic and political levels, combining former senior EU officials, leading politicians, and experienced EU attorneys who understand decision-makers and shifting political priorities.

We combine legal expertise with lobbying excellence. In lobbying, as in court, the stakes are high — it is winner-take-all, and experience is essential.

There is one certainty in Europe: change. The EU's political and legal system continuously adapts to evolving societal and economic needs, with laws and policies regularly revised to reflect the current climate.

EU decisions often have global impact — a single vote can transform an entire industry. Organizations must anticipate and adapt to this dynamic government landscape.

We advocate for clients before EU institutions, Member State governments and parliaments, and international organizations. Our longstanding relationships enable us to advance client interests at both strategic and operational levels.

Our greatest asset is our professionals. Clients value each team member as a strategic partner who delivers superior counsel and measurable results.

Our reputation extends beyond the EU, supported by long-standing client relationships worldwide and a consistent commitment to exceeding expectations.

Our team members have held senior positions in international organizations, the European Commission, the European Parliament, the Court of Justice of the EU, and national institutions, earning the trust of policymakers and opinion leaders globally.

We work as a multi-specialty team, proactively identifying risks and opportunities, leading negotiations, drafting legislation, initiating litigation when necessary, and implementing strategies that deliver results.
